Overview

The University Of Zimbabwe (UZ) had its beginning in 1952, making it the oldest tertiary education institution in Zimbabwe. Knowledge, Diligence and Integrity is the motto for the University of Zimbabwe and, throughout the history of the University; a strong belief in this motto has always been in evidence.

The University has also established partnership arrangements with several International Universities and Government organisations to enable international students, in particular, to

Sustainable Development Goals

ALA Task Force on United Nations 2030 Sustainable Development Goals

ALA Task Force on United Nations 2030 Sustainable Development Goals

The International Federation of Library Associations (IFLA) wants to show the power of libraries in achieving the UN Sustainable Development Goals (SDGs) and has asked library associations around the world to join in a global effort.

ALA's Task Force on United Nations 2030 Sustainable Development Goals (SDGs), part of Julius C. Jefferson's initiatives is developing a multi-year strategic plan to increase participation by libraries in efforts to achieve the Goals.

The UN Sustainable Development Goals are a call to action to end poverty, protect the planet and improve the lives and prospects of everyone, everywhere. The 17 Goals were adopted by all UN members, including the United States.

Example for an Academic Library

SUSTAINABLE DEVELOPMENT GOALS

Libraries helping communities meet the United Nations Sustainable Development Goals

1 No Poverty <u>Support faculty and student research through collections, consultation, and subject librarian expertise.</u>	2 Zero Hunger <u>Host or support student food and staple pantries for those in need.</u>	3 Good Health and Well-being <u>Programming wellness events: yoga, stress relief during finals, group fitness sessions, therapy dogs.</u>
4 Quality Education <u>Convening research panels, book displays, guest speakers, and research communities of practice for many related goal areas.</u>	5 Gender Equality <u>Library as a safe space regardless of gender orientation, place physical cards and digital signatures. Adoption of gender-neutral restrooms.</u>	6 Clean Water & Sanitation <u>Installation of refillable water stations to cut plastic waste. Fixtures that use less water use in restrooms.</u>
7 Affordable & Clean Energy <u>Library facilities construction and renovation – pursue LEED certifications, zero waste options, clean energy possibilities.</u>	8 Decent Work & Economic Growth <u>Support faculty and student research through collections, consultation, and subject librarian expertise.</u>	9 Industry, Innovation & Infrastructure <u>Support entrepreneurship and innovation Initiatives on campus. Provide community programming for these topics.</u>

<p>10 Reduced Inequalities</p> <p><u>Development of curricula for financial literacy course to help students make sound financial decisions.</u></p>	<p>11 Sustainable Cities & Communities</p> <p><u>Support faculty and student research through collections, consultation, and subject librarian expertise.</u></p>	<p>12 Responsible Production & Consumption</p> <p><u>Purchase eco-friendly library supplies, ones that use less plastic, recyclable materials. Utilize cafes that support environmentally safer methods for grinding beans and fair-trade coffee.</u></p>
<p>13 Climate Action</p> <p><u>Support campus sustainability initiatives, hold used clothing swaps, hold DIY events, or create a sustainability speaker series.</u></p>	<p>14 Life Below Water</p> <p><u>Librarians assist researchers studying dolphins and whales in Florida to identify pollutants.</u></p>	<p>15 Life on Land</p> <p><u>Libraries support collections on forestry, wildlife, fisheries, zoology, entomology, wildlife management and more.</u></p>
<p>16 Peace, Justice & Strong Institutions</p> <p><u>Service work to the community and institution as part of tenure, promotion, and reappointment activities. Participation in university shared governance.</u></p>	<p>17 Partnerships for Goals</p> <p><u>Participating in international professional organizations and memberships for libraries that work towards achieving the SDGs.</u></p>	<p>2030 AGENDA</p>  <p>FOR SUSTAINABLE DEVELOPMENT</p>

[Libraries, Development and United Nations 2030 Agenda](#)

1  **No Poverty**

LAPL's Career Online High School enables adults to earn a free, accredited high school diploma, which can lead to higher paying jobs and a brighter future.

Libraries helping communities meet the **United Nations Sustainable Development Goals**

2  **Zero Hunger**

LAPL partners with a local food bank to provide free lunch to children during the summer and provides information on food subsidy programs and resources to Angelenos.

3  **Good Health and Well-Being**

LAPL's partnerships with local agencies and organizations provide Angelenos with free dental and eye exams, eyeglasses, flu vaccines and access to health insurance.

4  **Quality Education**

LAPL provides every student with a Student Success library card to access resources that will help them succeed in school, and empowers parents to get their children ready for kindergarten with crucial early literacy skills.

5  **Gender Equality**

To actively encourage empowerment of girls, LAPL offers workshops on biodiversity, coding and more.

6  **Clean Water and Sanitation**

LAPL installed drip irrigation systems and rain sensors on the past five landscape improvement projects on library properties.

7  **Affordable and Clean Energy**

Seven LAPL branch libraries serve as venues for LADWP owned solar panels: Silver Lake, Sun Valley, Canoga Park, Lakeview Terrace, Ascot, Hyde Park and Exposition Park.

8  **Decent Work and Economic Growth**

LAPL partners with local organizations, city departments and the Chamber of Commerce to offer virtual and one-on-one assistance to job seekers and small business owners.

9  **Industry, Innovation and Infrastructure**

LAPL's makerspace, Octavia Lab, provides a source of innovation for the community to interact with cutting edge equipment. Staff and volunteers have used 3D printers to create face shields for frontline health care workers during the pandemic.

This work is licensed @ Creative Commons: Attribution-NonCommercial-ShareAlike 4.0 International (CC BY-NC-SA 4.0)

LAPL's makerspace, Octavia Lab, provides a source of innovation for the community to interact with cutting edge equipment. Staff and volunteers have used 3D printers to create face shields for frontline health care workers during the pandemic.

10  **Reduced Inequalities**

Libraries are free for all and welcome everyone regardless of status. LAPL makes information and learning available and accessible to all and provides equal services. LAPL's New Americans Initiative makes all of its library locations gateways to citizenship.

11  **Sustainable Cities and Communities**

LAPL is committed to building green and sustainable libraries and has constructed 5 LEED library buildings: Platinum—Lakeview Terrace and Silver Lake; Gold—Exposition Park and Sun Valley; and Certified—Harbor Gateway.

12  **Responsible Consumption and Production**

As a City Department, the library plays a role in achieving the Mayor's LA Green New Deal and participates in the Sustainability pLAN.

13  **Climate Action**

LAPL's Neighborhood Science program empowers "citizen scientists" to gather and share data for projects that monitor air and water quality, heat islands and cloud formations.

14  **Life Below Water**

By offering hands-on opportunities, LAPL's Neighborhood Science programs help scientists/researchers map and classify coral reefs and uncover the history of Giant Kelp forests around the globe in an effort to better understand threatened ecosystems and develop effective preservation measures.

15  **Life on Land**

Libraries provide data and research resources to promote sustainable ecosystems. LAPL partners with science organizations to track mosquito habitats and biodiversity trends.

16  **Peace, Justice and Strong Institutions**

LAPL's Teens Leading Change program empowers teens to find solutions and effect change, addressing local issues ranging from teen homelessness to media illiteracy to pollution.

17  **Partnerships for the Goals**

LAPL partners with organizations to extend our reach and impact, including NASA, the Environmental Protection Agency, International Rescue Committee, United States Citizenship and Immigration Services, Network of the National Library of Medicine, etc.

Environment, Sustainability and Libraries Section

ENSULIB's aim is to encourage librarians to inspire their communities into more environmentally sustainable way of action, by providing materials on green librarianship, giving voice to green librarians and library projects worldwide, leading by example, and offering a discussion forum.

Present environments are endangered by climate change and other threats including social inequalities. All organizations should strive to protect the environment through sustainable development. This includes all kinds of libraries, which can play an active and significant role in sustainable development.

Green and Sustainable libraries are particularly predestined to take on the role as exemplars, educators, and enablers. Green and Sustainable libraries take into account environmental, economic and social sustainability. Green and Sustainable Libraries may be of any size, but they have a clear sustainability agenda.

ENSULIB's commitment is guided by the United Nations Sustainable Development Goals, the Paris Climate Agreement and related environmental certificates and programmes.

ENSULIB brings together those who are interested in and responsible for sustainability in all

Libraries, ACRL, and financial literacy: Helping students make sound decisions

In this column, the first of my presidential year, I will highlight one of the areas on which I plan to focus this year and hope you will agree that it is an important topic for ACRL, libraries, and librarians.

There has been great emphasis placed in the past several years on the cost—and value—of higher education. In addition to the focus on the cost of textbooks and other nontuition expenses, lawmakers have also focused on the dramatic rise in student loan debt,¹ especially as student loan debt, in 2010, surpassed credit card debt in the United States.²

The Higher Education Opportunity Act of 2008 included several requirements for colleges and universities. Among these was the mandate to have a “net price calculator” to help students determine the actual cost of college. Colleges were also required to provide reading lists of required texts in advance of classes to provide students the opportunity to shop for competitive prices.³

As academic librarians, we should be concerned about this focus on the cost of higher education. Being embedded

FUTURA: ARUBA INNOVATION LAB

Futura is an SDG Innovation Lab and its team supports the Aruba Government in the design, development and implementation of a national innovation strategy, focusing on 3 main pillars: people, planet and prosperity. Each project or initiative is designed to contribute towards a thriving innovation ecosystem. Futura is committed to creating a better more sustainable future for our people, planet and communities, by applying the U.N. 2030 SDG Framework and leveraging the island of Aruba as its experimental lab for sustainable

ACC is proud to have a significant presence at the annual South by Southwest (SXSW) and SXSWedu conferences this year.

ACC at Center of Technology, Innovation, and Defense at SXSW

Submitted by sydney.pruitt on Thu, 03/10/2022 - 9:29am

Austin Community College District (ACC) will welcome prominent figures across government, the tech sector, and academia as it opens SXSW 2022 at the downtown Rio Grande Campus. The two-day event begins on Friday, March 11 with a focus on information technology, agile software development, and venture capitalism. On Saturday, March 12, ACC will host a panel discussion on the role of community colleges in the tech industry.

INFORMED SOCIETIES & INTEGRITY IN PUBLIC INFORMATION:

OPPORTUNITIES FOR BUILDING BACK BETTER & SDG SUCCESS WITH LIBRARIES

11 July, 2022 1:15 - 2:30pm ET | Dag Hammarskjöld Library, 2nd Floor Reading Room

Explore trends affecting the creation, sharing and application of information and integrity, and their implications for delivering the SDGs and the objectives of Our Common Agenda. With a particular emphasis on libraries as a key infrastructure for this, this workshop will look to identify key recommendations and questions for the future.

HOW TO SPOT FAKE NEWS

COVID-19
Edition

CONSIDER THE SOURCE

Is there an author? Check out their credentials on relevant issues.

READ BEYOND

Headlines can be outrageous in an effort to get clicks. What's the whole story?

SUPPORTING SOURCES?

Click on links or check with official sources. Do they support the story?

DO OTHERS AGREE?

Are any other sites reporting this? What sources are they citing?

IS IT A JOKE?

If it is too outlandish, it might be satire. Research the source to be sure.

CHECK YOUR BIASES

Consider if your own beliefs or concerns could affect your judgement.

ASK THE EXPERTS

Ask a librarian, or consult a fact-checking site, official source like the WHO.

LOOK BEFORE YOU SHARE

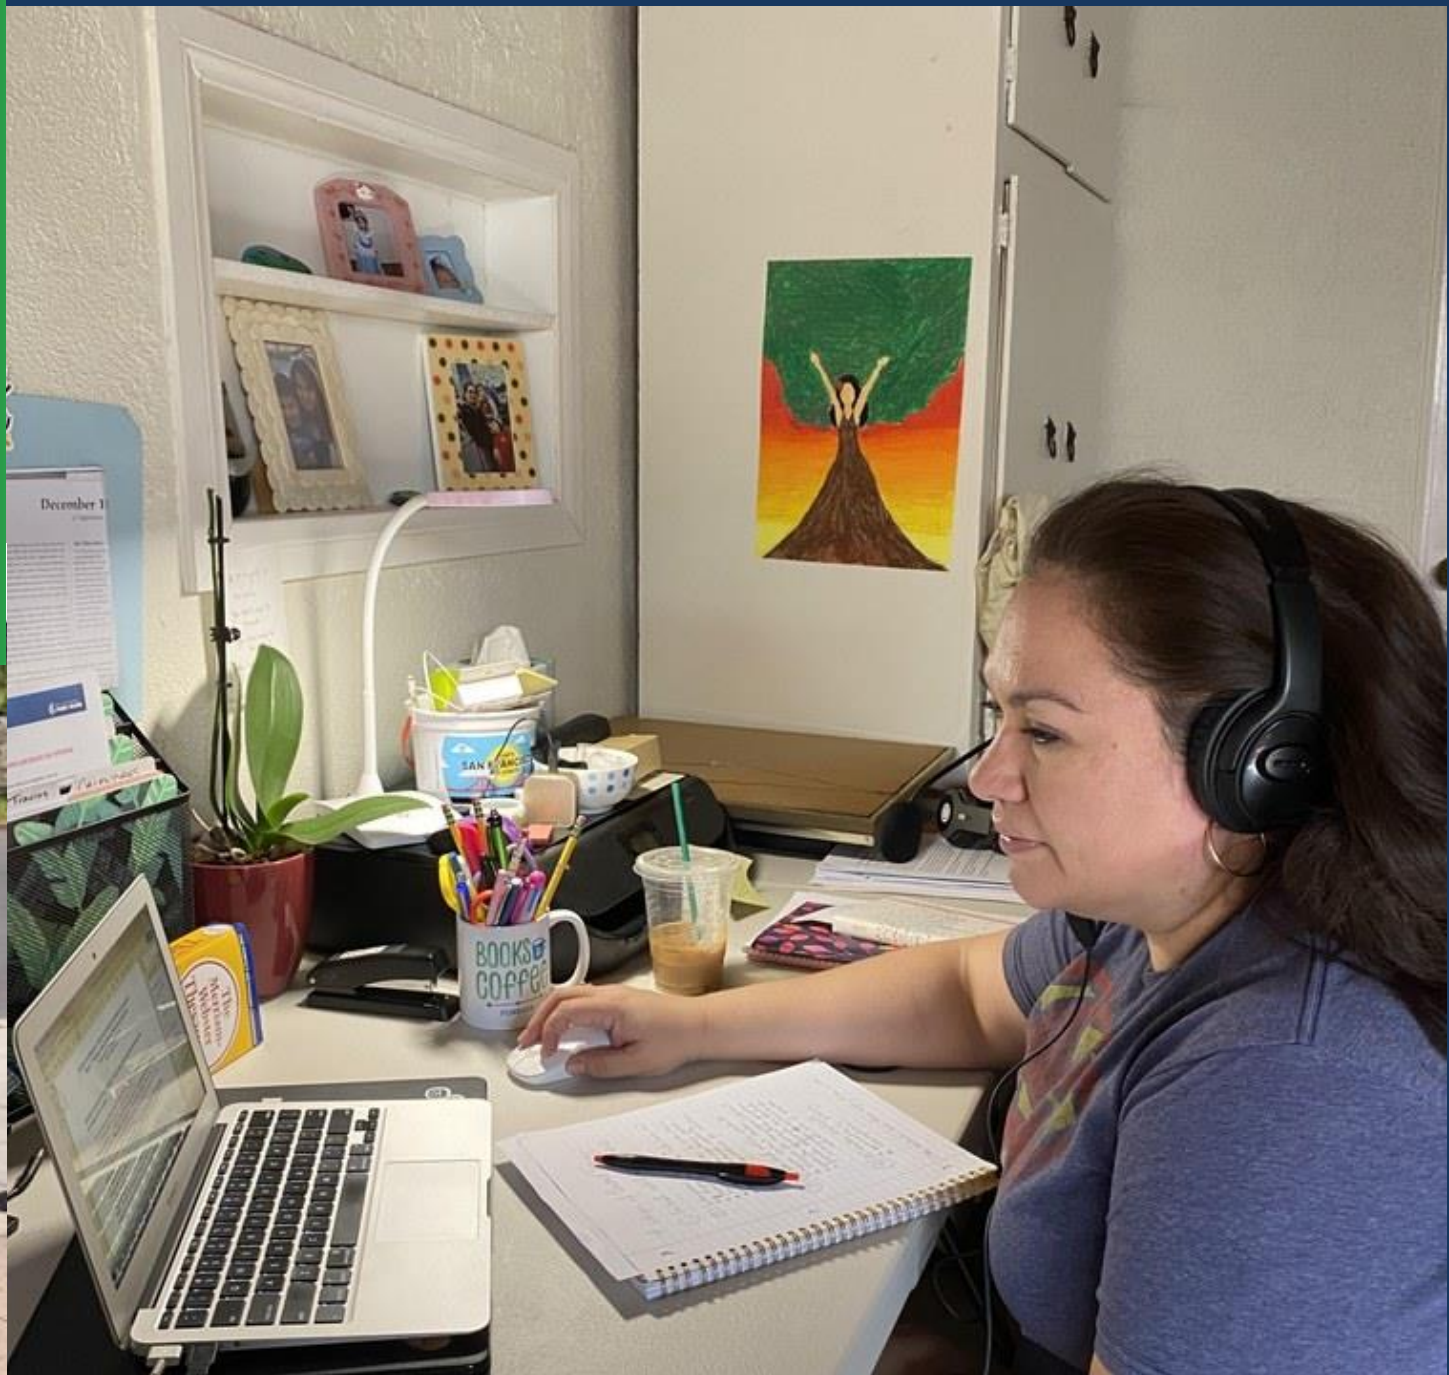

Don't share posts or stories that you haven't checked out first!
